T.J.J.M van Eijk

Hiermede verzoek ik u bovenvermelde toetsing uit te voeren op basis van de gegevens die u nu ter beschikking hebt, te weten de "Evaluacion Impacto Ambiental, Guasmo", zoals door de HAM BV is aangeboden, onder verwijzing naar de overeenkomst tussen het DGIS en de Cie voor de M.E.R. d.d. 29 maart 1993. De begroting daarvoor zie ik gaarne tegemoet.

DE MINISTER VOOR ONTWIKKELINGSSAMENWERKING,  
Voor de Minister,  
Het Hoofd van het Milieuprogramma,

  
(Dr K.A. Koekkoek)

## **APPENDIX 2**

### **Project information**

**Proposed Activity:** A request for an ORET grant has been made by a Dutch dredging contractors company (Hollandsche Aannemers Maatschappij) for an export transaction involving an urban improvement project in the Central and South Guasmo area of the city of Guayaquil, Ecuador.

The project consists of dredging sediment from a borrow area in the river Guayas with a trailing suction hopper dredger, transporting the sand, and hydraulic filling of areas to be reclaimed. During the operation, the houses that are present in the areas to be reclaimed, can remain in place. In addition, the project comprises the design of a Masterplan for the fill area and design and implementation of a basic drainage system. Main objective of the proposed project is improving the living conditions.

**Categories:** land reclamation, drainage; DAC/CRS-codes 91082, 91081 and 71210

**Project numbers:** DGIS: WW92850 (JRC UR vlgnr. 381); Commission for EIA: 014

**Progress:**

letter with request to submit an advice on Terms of Reference: 9 March 1995

mission working group: 21 – 28 March 1995

advice on Terms of Reference submitted: 13 April 1995

Terms of Reference determined: April 1995

letter with request to submit an advisory review: 30 October 1995

advisory review submitted: 5 March 1996

**Special features:** Upon discussion on the contents of the EIS it was decided to provide in a complement to the EIS additional information on return periods, on geotechnical characteristics of the fill area, on probability of chemical pollution of the fill area and the Esteros, on commitment of local authorities to project supervision and execution of follow up activities, and on monitoring and evaluation. The review advice concerns the EIS and its complement.

**Composition of the working group of the Commission for EIA:**

The EIA is prepared by a working group of the Commission for EIA, consisting of independent experts of Ecuadorean and Dutch nationality:

Mr D.G. van Duijne

Mr J.W. Kroon (chairman)

Mr R. van Lieshout

Mrs F. Valverde (Ecuador)

Mr F.G. Villavicencio (Ecuador)

**Technical secretary:** Mrs I.A. Steinhauer (advice for Terms of Reference) and Mr R.A.M. Post (advisory review).
